QUESTIONS TO ASK THE INTERVIEWER
OVERVIEW

A job interview is an opportunity for a company to learn more about you. Additionally, it’s to your advantage to find out what you need to know about them and the position to make your own well-informed decision. You also want to use the opportunity to impress them with smart questions, showing your interest and diligence.

Of course, the best questions to ask are ones highly specific to the role and/or the company. For example, for a risk management role at a commercial bank, a great question to ask that demonstrates both your knowledge and passion could be “The regulatory burden imposed on banks has increased significantly due to Basel III and CCAR. How has the bank adapted to meet the new challenges of staying in compliance with these regulations?”
